

Why does the shape you circled NOT belong?

Why do the other three shapes belong together?

Why does the shape you circled NOT belong?

Why do the other three shapes belong together?

Why does the shape you circled NOT belong?

Why do the other three shapes belong together?

Why does the shape you circled NOT belong?

Why do the other three shapes belong together?

Draw a fourth shape that belongs with the group.

Why does the shape you drew belong with the group?

~~~~~  
Now, create your own group of FOUR shapes that BELONG together (have something in common).

What do all four of your shapes have in COMMON?
